

Un lancio di Yuriy Syedikh

di Juris Terauds, Research Center for Sports, Del Mar, California

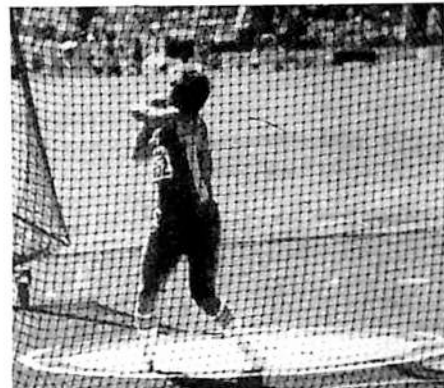

Presentiamo una sequenza di lanci del martellista sovietico Yuriy Syedikh uno dei massimi interpreti moderni di questa specialità in campo mondiale. Caratteristica principale di questo lanciatore che ha scagliato il martello a m. 86,66 è di lanciare con soli tre giri rispetto ai quattro giri che costituiscono la caratteristica tecnica della maggioranza degli specialisti protagonisti della scena internazionale.
